Work History

In-Tek Inc. (November 2024-June 2025).

Position: Assembly Line Labourer

Description: A robotics painting and finishing solutions plant for complex parts and appliances. My responsibilities were as follows: loading and unloading of molds onto the production line as well as product assembly. I also worked in product packing for shipment and inspected products for possible water contamination before being painted.

Dynamic Displays (October 2022-September 2024).

Position: Parade Balloon Maintenance Worker

Reference: Steve Thomson, Ph. 519-254-9563 or email steve@fabulousinflatables.com

Description: A company that makes, maintains and displays parade and lawn balloons. I maintained the balloons, and the equipment to operate them. Also, I accompanied balloons to parades in Canada and U.S.

Action Framing (April-September 2022).

Position: Construction Labourer/Framer

Reference: Aron Dueck, Ph. 902-325-0406 or email actionframing.on@gmail.com

Description: A full time job framing both production and custom houses. Carried equipment and materials where needed on the jobsite. Became proficient with the use of power tools. Learned how to put the frame of a house together and could work with minimal supervision.

UPI Energy FS (March 2020-April 2022).

Position: Pump Jockey

Reference: Rick Pickersgill, Ph. 519-965-1657 or email rickpickersgill@gmail.com

Description: A part time job at a gas station. Involved pumping gas, handling hazardous materials such as chlorine and propane, checked oil, handled sales transactions, and general cleaning and maintenance of store and lot.
