- Strong written and verbal communication skills
- G Class driver with good driving record
- St. John Ambulance – First Aid – CPR C - AED

Personal Statement

Throughout my career, I have gained valuable experience in three diverse fields: the Culinary industry, Horticulture and construction. I've always started at entry-level positions and worked my way up, continually learning and developing my skills. I have also had the privilege of mentoring others, sharing my knowledge, and fostering growth in those I've worked with.

In addition to my 12 years as a Chef and 4 years of experience in the cannabis industry, I spent the last 25 months in high-rise construction, where I gained hands-on experience in construction processes and safety protocols. I believe my diverse background, combined with my strong work ethic and ability to adapt, positions me well to succeed as an apprentice.

I am eager to transition into the trades, where I can apply my skills, learn new ones, and grow through apprenticeship opportunities. My goal is to contribute to a dynamic team while furthering my career in a field that offers long-term potential and success.
