SUMMARY OF QUALIFICATIONS

Experienced construction and operations professional with over eight years of hands-on experience delivering residential construction, renovation, and maintenance projects. Known for a practical, results-focused approach to coordinating people, materials, and schedules to ensure projects are completed safely, efficiently, and to specification.

Strong background in site management, contractor and vendor coordination, material procurement, and delivery logistics, with the ability to balance field execution and operational oversight. Proficient in reading and interpreting blueprints, site preparation, and construction best practices, with working knowledge of plumbing systems, electrical systems, and general maintenance. A reliable team leader and collaborator who values safety, clear communication, and continuous learning, with a long-term career focus in construction and project management.

RELEVANT EXPERIENCES

Electrical Panel Machine Operator

REF Automation – North York, ON | February 2025 – July 2025

- Operated and configured machine control panels, demonstrating proficiency with industrial electrical systems and control interfaces.
- Performed precise machine adjustments based on tolerance specifications, showcasing technical accuracy and problem-solving under production conditions.
- Conducted regular quality inspections using calipers, with detailed reporting on part conformity and process control documentation.
- Handled and positioned large metal bars (12' to 16') for machine feeding, simulating conduit and panel installation tasks in electrical construction environments.

LOC Nigeria Limited – Director / Project Lead

Abuja, Nigeria | 2021 – 2024

- Led the trade and distribution of oil and gas, petroleum products, and fertilizers, overseeing end-to-end commercial operations
- Managed delivery, transportation, and logistics coordination for petroleum and fertilizer products, ensuring timely and compliant distribution
- Oversaw residential construction, renovation, and maintenance projects from planning to completion
- Managed contractor teams, site workers, and vendors to ensure quality and timely delivery
- Coordinated material procurement, site inspections, and daily work schedules
- Ensured compliance with safety regulations, building codes, and client specifications

ITB Construction Limited – Concrete Laboratory Technician(Intern)

Eko Atlantic City, Lagos, Nigeria | 2016

- Performed concrete mix design, slump tests, and cube strength tests according to ASTM/BS standards
- Inspected and tested construction materials to ensure compliance with project specifications
- Coordinated with site teams for timely concrete placement and reported on test results
- Maintained lab equipment and followed strict health and safety procedures on-site

SKILLS

- Basic Hand and Power Tool Operation
- Understanding of Job Site Safety and PPE Use
- Process Optimization & Workflow Management
- Proficient in Microsoft Office 365
- Adaptable to New Tools and Work Environments
- Physical Stamina and Strength for Manual Labor
- Teamwork and Communication on Construction Sites

EDUCATION & AWARDS

EDUCATION & PROFESSIONAL DEVELOPMENT

Bachelor of Engineering, Chemical Engineering – *University of Benin, Nigeria - 2018 (Evaluated by WES)*

Skilled Trades Exploration Program – *Centre for Skills, Burlington, ON (2025)*

Plumbing Apprenticeship – *UA Local 46, Scarborough, ON (2025)*

Fundamentals of Project Management – *Toronto Metropolitan University, in conjunction with Access Employment, Toronto, ON (2025)*

Project Management Certification
Project Management Institute (2025)

LICENCES & CERTIFICATIONS

- SmartServe Certified
- WHMIS (Workplace Hazardous Materials Information System)
- Worker Health and Safety Awareness in 4 Steps
- First Aid, CPR & AED
- AODA (Accessibility for Ontarians with Disabilities Act)
- Food Handler Certification
- Ontario Security License
- Use of Force Certification
- Excel Basics Certification – Ontario Training Network
- Customer Service Training
- Full Class G Driver's License
- Working on elevated platform certificate
- Mini Escavator & Skid Steer Operator Record of Training
- Member Canadian Society of Chemical Engineers - 48588

VOLUNTEER EXPERIENCE

- **Habitat for Humanity** – Contributed to residential construction projects, demonstrating teamwork, safety, and hands-on building skills.
