INDUSTRIAL MILLWRIGHT (433A) – UNION CANDIDATE

Registered **433A Industrial Millwright Candidate (Ontario)** with hands-on experience in **industrial maintenance, shutdowns, turnarounds, and oil & gas / petrochemical facilities**. Strong background in **mechanical installation, rigging, welding, and rotating equipment**. Safety-oriented, production-focused, and ready for dispatch.

TRADE STATUS & LICENSING

- **433A Industrial Millwright Candidate – Ontario (MTCU Registered)**
 - **Qualified & ready to enroll for 433A Industrial Millwright License (Ontario)**
 - **Rigging Authority – MTO Licensed**
 - Mechanical Millwright
 - Valid driver's license | Own fleet/service truck
 - Available for **shutdown, turnaround, and call-out work**
-

UNION & SHUTDOWN CORE SKILLS

- Industrial maintenance & mechanical installation
 - Shutdowns, turnarounds, outages, and plant overhauls
 - Pumps, compressors, gearboxes, conveyors, rotating equipment
 - Precision alignment, bearings, seals, couplings
 - Heat exchangers, steam plants, steam turbines
 - Industrial water & process water treatment systems
 - Valves & control valves (fail-open / fail-closed, pneumatic systems)
 - Lockout/Tagout (LOTO), job hazard analysis (JHA), toolbox talks
-

WELDING, RIGGING & FABRICATION

- **SMAW (Stick):** Open root, 6010 / 7018
(overhead, vertical-up, horizontal)
 - **MIG Welding:** Aluminum, stainless steel, mild steel
 - Plasma cutting & oxy-acetylene torch cutting
 - Certified rigging practices, lifting & signaling
 - Lathe, shear, bending & general machine shop equipment
-

INDUSTRIAL / OIL & GAS EXPERIENCE

Industrial Millwright / Mechanical Technician

Manufacturing • Oil & Gas • Petrochemical • Food Processing

- Performed mechanical maintenance and installations in live plant environments
 - Worked on pumps, valves, heat exchangers, steam and process systems
 - Supported **shutdowns and turnarounds** under tight schedules
 - Conducted troubleshooting, breakdown repairs, and equipment change-outs
 - Followed union safety standards and site-specific procedures
-

ADDITIONAL QUALIFICATIONS

- Strong mechanical aptitude & troubleshooting
 - Able to read drawings, P&IDs, and schematics
 - Physically fit for industrial, shutdown, and field work
 - Dependable, safety-driven, and crew-oriented
-
