- Reviews and monitors cost and man-hour budget for the installation process to develop an equipment and tool requirement plan.

Power Tec.

Millwright

3/22-5/22

- Assisted in moving machinery and equipment when necessary using hoists rollers and dollies.
- Assured proper machine alignment using hand tools rules squares micrometers and plumb bobs.
- Performed minor repairs and regular maintenance and lubrication of machines and equipment.
- Fabricated machinery from essential parts fitted pipes and dismantled old machinery.
- Serviced and repaired hydraulic pneumatic and programmable logic.

NorthStar Construction

Supervisor

8/7/2018-3/2022

- Managed diverse team of ironworkers, tradesmen, and general roles.

- Planned, coordinated, budgeted, and supervised construction projects of small- and medium-scale buildings, including build-out and quality.
- Building projects of various sizes in the residential and commercial construction areas.
- Monitored construction projects on-site and made daily decisions about construction activities.
- Met all given construction project deadlines and budget limitations.

CB&I

Millwright Mechanical

9/10/2015-2/10/2018

- Read blueprints and schematic drawings to determine work procedures.
- Assisted in moving machinery and equipment when necessary, using hoists rollers and dollies.
- Assured proper machine alignment using hand tools rules squares micrometers and plumb bobs.
- Performed minor repairs and regular maintenance and lubrication of machines and equipment.
- Fabricated machinery from essential parts fitted pipes and dismantled old machinery.
- Serviced and repaired hydraulic pneumatic and programmable logic controls.

Bechtel

Millwright Apprentice

6/1/2013– 8/20/2015

- Participated in and learned about equipment maintenance and reliability.
- Adhered to health safety and environmental policies and procedures.
- Provided input and feedback on issues affecting the department.
- Trained on operation of standard fork lift 4x4 fork lift and zoom boom.
- Maintained inventory of replacement parts.
