Dear Hiring Manager,

I am writing to express my interest in a position with your company. With a strong mechanical aptitude, hands-on experience in minor mechanical repairs, and a deep passion for heavy equipment, I am eager to contribute to a team where I can continue to learn, grow, and support the success of your operations.

From a young age, I was introduced to heavy equipment, because of a family business, and quickly developed a fascination with machines like excavators, loaders, backhoes etc. Over the year, this interest has grown into a true passion. In my free time, I enjoy fixing small engines and working on mechanical projects – activities that have strengthened my understanding of how machines work and how to keep them running efficiently.

In addition to my mechanical interests, I am an outdoor enthusiast who enjoys exploring the backcountry. This lifestyle has taught me the value of self-reliance, attention to detail, and perseverance – qualities I bring into every job site or shop environment. I currently hold a Class 5,8 and 9 drivers license, along with a permit for Class 3, making me flexible and ready for mobile or on-site responsibilities.

I am seeking an opportunity where I can continue building my skills in either the millwright or operating trade. I am eager to learn from experienced professional, take on new challenges, and contribute positively to a productive and safety-focused team.

Thank you for considering my application. I would welcome the opportunity to further discuss how I can support your team and look forward to the possibility of an interview.

Sincerely,

Logan Curtis
