Objective

Apprenticeship candidate seeking to join Millwright Local 1916. Industrial welder with hands-on experience in boiler fabrication, structural assembly, blueprint reading, and overhead crane operation. Committed to safety, reliability, and developing the mechanical skills required to become a licensed Industrial Mechanic (Millwright).

Trade Experience

Welder – Innovative Steam Technologies, Cambridge, ON (Oct 2025 – Present)

- FCAW and MCAW structural welding on boiler systems and heavy components
- Blueprint and weld symbol interpretation
- Structural fit-up, alignment, and assembly
- Maintain quality and safety standards in industrial environment

Production Operator – Innovative Steam Technologies, Cambridge, ON (May 2025 – Jul 2025)

- Prepared pipe and structural materials for fabrication
- Operated overhead crane to move and position heavy components
- Assisted with mechanical assembly and fit-up
- Used grinders, measuring, and layout tools

Carpenter (Co-op) – Eastforest Homes, Kitchener, ON

- Built structural components from foundation to finish
- Followed construction drawings and building plans
- Worked safely at heights in team environments

Mechanical Aptitude

- Blueprint and technical drawing interpretation
- Equipment alignment, fit-up, and structural assembly
- Precision measuring and layout
- Experience with power tools, grinders, and fabrication equipment
- Rigging fundamentals and safe material handling
- Strong hands-on mechanical problem-solving ability

Certifications

- CWB Welding Certification – FCAW/MCAW (Flat)
- Overhead Crane Operator Certification (Valid to 2028)
- Valid Driver's License
- Willing to travel, work overtime, and shift work

Key Strengths

- Strong safety mindset and reliability
- Experience in heavy industrial environments
- Physically fit and capable of demanding work
- Team-oriented with positive attitude
- Long-term commitment to Millwright trade
