Work History

ASSEMBLER

2016 – 2018 & 2022- current

SKYJACK GROUP INC., GUELPH, ON

- Assemble, fit and install prefabricated parts to form subassemblies or finish products using hand and power tools.
- Diagnose and correct any problems in the electrical, hydraulic , and mechanical parts of the units
- Push defects back by bringing attention to the mistakes that are being made by the people making them and teach them how to properly correct it next time
- Make sub-assemblies to drawings and specifications.
- Perform quality checks as required.
- Perform other duties/projects as assigned.
- Test all functions and operations on the unit to make sure only quality units are being sold
- Travelled internationally to train new workers and establish proper workplace process
- Lead a team of international employees to complete builds and ship out quality equipment

ROOFING 2021-2022

J. Morrison roofing, Elora ON

- Drove van and trailer daily to site and back to shop along with coworkers
- Cleared roofs of existing material and made sure roof is watertight daily
- Set up scaffold to assist all operations on site and removed and relocated it as necessary
- Made sure all tools and materials are loaded in the van to be delivered to site daily as they are needed
- Was left in charge of coworkers to make sure that their work is up to standard when boss is absent from site
- Worked safely at heights and on scaffold

DISASSEMBLER/SUB CONTRACTED LABOURER

2009 – 2014 & 2019 – 2020

CDR REMOVALS, DUNDALK, ON

- Occasionally sub contacted to drywall, and renovations
- Occasionally sub contracted to do spray foam
- Responsibly disassembled furnaces, oil tanks, boilers, and radiators while ensuring compliance with safety protocols.
- Assisted in disassembling boiler (14 ft. long 7 ft. tall boiler) over a two-week period - 15 000 lbs of steel and piping removed.
- Resolved problems by altering dimensions to meet specifications and notifying supervisors to obtain additional resources.

ASSEMBLY WORKER

2015

GOLDEN WINDOWS AND DOORS, KITCHENER, ON

- Comprehended instructions & followed established procedures while implementing strict adherence to safety protocols.
- Responsibly delivered windows in the truck & collected all material and equipment needed to begin the work process.
- Maintained equipment in good condition and took precision measurements to ensure the perfect fit of components.
- Aligned material while selecting and modifying components according to measurements and window/door specifications.
