London, ON

226-377-9185 | [Dariengriffin2012@gmail.com](mailto:Dariengriffin2012@gmail.com)

Skilled and safety-focused millwright with several years of experience installing, maintaining, and repairing industrial machinery. Seeking to apply strong mechanical aptitude, problem-solving skills, and a commitment to preventative maintenance in a fast-paced industrial environment. Dedicated to minimizing downtime and ensuring equipment operates efficiently and safely.

## EXPERIENCE

### MILLWRIGHT

Cami Automotive Ingersoll, ON

2024 – PRESENT

- Perform mechanical installation, alignment, assembly, and dismantling of equipment and machinery around the production line.
- Troubleshoot, diagnose, and repair mechanical, hydraulic, pneumatic systems to minimize downtime and meet production targets.
- Conduct preventative and predictive maintenance tasks including inspections, lubrications, alignment, bearing replacements, and component rebuilds.
- Read and interpret blueprints, layout drawings, schematics, and manufacture manuals to determine proper setup and installation methods.

### MILLWRIGHT APPRENTICE

Cami Automotive Ingersoll, ON

2020-2024

- Assist journeyman millwright and maintenance team in installations and dismantling of production equipment and tooling in the vehicle assembly line and battery facility.
- Operate hoists, jacks, forklifts and other rigging equipment under supervision required for equipment moves.
- Work collaboratively with production, engineering and maintenance teams to coordinate maintenance windows, support line changeovers, and production uptime.
- Attend formal in-class apprentice training as per the Ontario apprenticeship program requirements and apply learning on the job.

### PSG/TEAM LEADER

Cami Automotive Ingersoll, ON

2016-2020

- Ensure that all team members adhere to standardized work procedures, operating instructions, and documentation.
- Lead and coordinate the activities of production teams to achieve targets and production output.
- Complete administrative duties such as safety checks and quality reports.
- Manage work assignments when production line is down, acting in a flexible manner to support demands.
- Train, coach and support all team members on various assembly lines.

## EDUCATION

### **MILLWRIGHT APPRENTICESHIP PROGRAM**

Fanshawe College | St. Thomas, ON

2020-2024

- Completed hands on training covering mechanical systems, hydraulics/pneumatics, welding & fabrication, blueprint reading and machine set up with a 4.2 GPA.

### **RENEWABLE ENERGIES TECHNICIAN**

Fanshawe College | St. Thomas, ON

2013-2014

- Received a college diploma and completed comprehensive training in the installation, operation, and maintenance of renewable energy systems including solar, wind, and geothermal technologies.

## SKILLS & CERTIFICATES

- Red Cross First Aid
- Elevated Work Platform & Fall Arrest Training
- Forklift Training
- Confined Space Training
- Rigging Training
- High Voltage Safety

- Fanuc Dual Check Safety
- Fanuc Robot Tear Down
- Fanuc Paint Tool Programming
- Electrical Safe Work Practices
- Dangerous Goods Transportation
- Infrared Thermography
