PROFESSIONAL EXPERIENCE

Delivery Crew and Service Technician, The Spa Shoppe - Whitby, On

April 2025 - Present

- Installed, assembled, and serviced hot tubs and related systems, ensuring proper plumbing connections and electrical component functionality.
- Diagnosed and repaired pumps, heaters, and control systems using hand and power tools while following safety procedures and manufacturer specifications.
- Coordinated safe transportation and on-site setup of large equipment, demonstrating strong mechanical aptitude, teamwork, and attention to detail in customer-facing environments.

Shop Manager, The Lube Shop Inc - Bowmanville, On

April 2021 - April 2025

- Conducted diagnostics, repairs, and routine maintenance on a wide range of vehicles, including engine, drivetrain, suspension, and brake systems, to ensure safety and reliability.
- Fabricated, installed, and repaired mechanical components such as brackets, exhaust sections, and fittings using precision hand tools, power tools, and shop equipment.
- Oversaw up to 8 employees while maintaining high shop standards, coordinating workflow, and ensuring exceptional customer satisfaction through quality service and clear communication.

Assembly Line Worker, Cpk Interior Products - Port Hope, On

May 2020- February 2021

- Assembled automotive interior components with precision in a fast-paced production environment, ensuring quality standards and production targets were consistently met.
- Operated and monitored assembly line equipment, identifying minor mechanical issues and reporting or assisting with corrective maintenance to reduce downtime.
- Followed technical specifications and safety procedures while working collaboratively with team members to maintain efficient workflow and high product quality.

General Labourer, Newton Concrete - Bowmnville, On

December 2016 - April 2020

- Assisted with forming, pouring, and finishing concrete, ensuring accurate measurements, proper alignment, and quality workmanship on residential projects.
 - Operated and maintained hand and power tools, vibrators, and compacting equipment while following strict safety standards on active job sites.
 - Supported site preparation and layout using measurements and basic blueprint interpretation, demonstrating attention to detail, physical endurance, and strong teamwork in demanding environments.
