OBJECTIVE

Motivated and reliable Millwright student seeking a co-op position or apprenticeship to gain hands-on experience in the trade. Strong work ethic, attention to detail, and a willingness to learn. Looking to contribute to a team and learn skills to develop into highly capable millwright.

HIGHLIGHT OF QUALIFICATIONS

- Comfortable working with power tools, hand tools, and mechanical equipment.
- Reliable, strong communication skills, able to follow instructions clearly and keep others updated throughout tasks.
- Work effectively in team environments, collaborating with others to complete tasks safely and accurately.
- Holds driver's license, with reliable transportation, willing to travel long distances.
- Certified in Working at Heights, September 2024

EDUCATION

Diploma, Manufacturing Engineering Technician

September 2025 – Present

Mohawk College, Stoney Creek, ON

- Currently enrolled in second semester.
- Completed first semester with GPA of 84.2%.

Ontario Secondary School Diploma

Graduated June 2025

Waterdown District High School, Waterdown, Ontario

- Completed a 5-month co-op term in senior year with a general contractor
- Assisted in installing doors, windows, plumbing systems, flooring, and small electrical and heating appliances.
- Organized work truck and was introduced to many new power tools and equipment.

TECHNICAL SKILLS

- Able to analyze and create basic hydraulic and pneumatic systems, including component identification and troubleshooting.
- Reading and interpretation of blueprints, using AutoCAD and Autodesk Inventor to create 2d drawings and 3d models.
- Hands on machining, setting up and operating the lathe, milling machine, and surface grinder.
- Using precision measurement tools, such as vernier calipers and micrometers for accurate findings.
- Drawing and understanding schematics, both hydraulic and pneumatic layouts.

EMPLOYMENT EXPERIENCE

Snow Removal Crew Member

November 2025 – Present

Gelderman Landscape Services, Waterdown, Ontario

- Prepared work trucks at the start of every shift, including connecting trailers and loading equipment such as snowblowers, raders, shovels, and safety equipment.
- Collaborated with crew members to execute snow clearing operations using site maps, plans, and different routes to ensure efficiency while we service.
- Analyzed site maps to identify snow removal zones, salting zones, and avoiding hazards to maintain safe and accessible walkways.
- Applied salt and cleared snow with attention to detail, always keeping customers safety first and meeting our companies' standards.
- Working overnight and on call shifts during snowstorms while balancing college classes and responsibilities.
- Demonstrated strong reliability, adaptability, and teamwork in fast paced, weather dependent conditions.

Construction Laborer

July 2024 – August 2024

Drewlo Holdings, Paris, Ontario

- Seasonal Worker
- Graded and prepared work areas for concrete pours.
- Operated plate compactors to flatten and level surfaces according to specifications.
- Worked alongside skied steer operator using a laser level to achieve accurate grade.
- Emptying sand buckets and materials from crane buckets.
- Supported site preparation and maintaining work areas to keep them organized and clean.

Hardscape Laborer

March 2024 – September 2024

Growing Gardens, Milgrove, Ontario

- Seasonal Worker
- Loaded and unloaded interlock, flagstone, sod plants, and construction materials to prep job sites.
- Set up and operated laser levels to verify grade and ensure accurate elevations.
- Mixed concrete/mortar and assisted foreman with interlock installation and material placement.
- Used hand tools, power tools, string lines, and layout equipment while working safely alongside heavy machinery such as excavators and skid steers.
- Formed up areas for concrete pours, pouring concrete and screeding walkways and patios, verifying measurements to maintain square, precise layouts.
- Removing debris, organized materials to keep a clean and safe work environment.
