EXPERIENCE

Canadian National Rail, Sarnia — *Rail Car Mechanic (carman)*

FEBRUARY 2024 - PRESENT

- Inspecting, diagnosing, and repairing rail cars
- Welding, torching, and fabricating parts
- Heavy use of hand tools and power tools
- Operating numerous types of hydraulic jacks
- Operating large machinery such as fork-lifts, load-lifters, track-mobile and more
- Operation of a specialized mobile repair truck (DZ) equipped with a boom crane. This requires a lot of travel and on call hours.
- Billing for the repairs on rail cars

Anchor Danly, Windsor — *CNC Machinist*

MARCH 2022 - JUNE 2023

- Use of a 3-Axis CNC mill, bridgeport, lathe, and many other machines
- Use of an overhead crane
- Reading blueprints and programs while searching for inconsistencies.
- Manually programming the tooling movements at the controller using G-codes
- Adhering to strict, tight tolerances while upholding a high standard for attention to detail
- Machine and tool maintenance
- Use of many hand tools and ait tools

Erie Architectural, Tecumseh — *Assembly Line Worker*

November 2021 - November 2022

- Reading blueprints
- Assembling steel and aluminum beams for industrial windows
- Heavy use of hand tools and power tools of a vast variety
- Use of an overhead crane

SKILLS

Diagnostics, Repair, Maintenance

Use of hand tools and power tools

Welding and Fabrication

Fork-lift and Load-lifter operation

Attention to detail

Problem Solving

Blueprints/Schematics

CERTIFICATIONS

DZ License

OSSD: Chatham-Kent Secondary School 2006-2010

S.M.A.W (in progress)
