## 433A Millwright Apprentice (L2)

27 Hillsdale Court  
Dundas, ON L9H6K1  
(289) 887-4105  
Mike666444@gmail.com

### SKILLS

#### Qualifications:

- CWB certified for all position SMAW and FCAW/MCAW, as well as flat SMAW on stainless steel.
- Up-to-date working at heights training, fall arrest, boom lift training, rigging training, 0-8T Broderson crane training, forklift certification, and first aid training.
- Excellent schooling record, listed in the section following work experience.

#### Skills:

- Layout, fabrication, welding, equipment operation, rigging, mechanical diagnosis, water piping, basic hydraulic systems, clean driving record, hauling and trailering experience, industrial repair on gearboxes, conveyor belts, and aggregate equipment repair experience.

### EXPERIENCE

#### **Mainsteel Inc, Brantford, ON** - *Millwright Apprentice/Welder*

July 2023 - PRESENT

- The majority of my job responsibilities include site welding, repair and maintenance work in aggregate quarries, steel mills, scrap yards, and other locations. I have performed some plant work and have performed shift coverage, operating equipment when called upon.
- In this role specifically, I have gained a lot of experience in the Millwright trade, as when I started initially, I was brought on to weld and fabricate and transitioned to millwrighting since then.
- As this is my current employer, I do not wish for them to be contacted at this time. I will provide contacts at this company upon request when progress is made in my application to your company.

#### **Brantford Hydraulics Inc., Brantford, ON** - *Production Welder*

May 2023 - July 2023

- 
- Production welding job, assembling and fabricating hydraulic and pneumatic cylinders in large batches using wire feed welding processes, as well as machines specific to the task.
  - I did not find the production aspect fulfilling, and consequently did not stay long
  - Reference for this job would be the HR person, Sarah Nimijohn: snimijohn@brantfordhydraulics.com

### **UPS Canada, Hamilton International Airport** - *Ramp Agent/Operator*

September 2022 - May 2023

- Acquired this job for my second year of studies at Niagara College, and worked part-time for early morning shifts at the airport on the ramp.
- Job tasks included operating equipment (K-Loaders, Tugs, and Belt loaders) for unloading full-size cargo aircraft, movement of packages around the yard, as well as some work indoors sorting incoming goods.
- Reference manager, Megan Davey: (905) 512-9908

### **Windmill Power Equipment, Dundas, ON** - *Driver/Rental Maintenance*

September 2019 - December 2023

- Worked approx 1-1.5 years as a full-time driver delivering equipment such as skid steers, small excavators, and smaller landscape equipment such as lawnmowers and snowblowers.
- Worked maintaining rental fleet of small and large equipment, as well as doing occasional service calls for rental equipment breakdowns, snow plow, and salt spreader repairs.
- From September 2019 to September 2022, I spent the majority of my time there. I continued to work weekend shifts from September 2022 to December 2023 as supplemental income.
- Reference is my former rental manager, Aaron Bonas: (905)-9237972

## **EDUCATION**

### **Mohawk College, Stoney Creek** - *Industrial Mechanic Millwright*

*Apprenticeship level one*

October 2025 - December 2025

Level one of my apprenticeship at Mohawk College in Stoney Creek, I was exempted from three courses from some of the courses I took during my time at Niagara, the remaining four courses I completed with a 90% Average. As of December 2025, I have 5500+ hours associated with my apprenticeship, of which I would consider 4000 to be crucial to my experience. A Transcript can be provided upon request

### **Niagara College, Welland** - *Welding Technician*

September 2020 - May 2023

---

Completed a two-year welding technician program at Niagara College, with honours in all four semesters. Completion of the program was delayed for one year due to complications with Niagara College's COVID-19 policies at the time. A transcript can be provided upon request.

### **Other:**

I spent 6 years as a youth as a part of the Cadet program, where leadership experience was instilled to me from start to finish.

I completed high school on time, and with the completion of the Automotive SHSM (Specialist High Skills Major) I can provide a transcript upon request.

### **Personal:**

Personal strengths I believe I have are problem-solving skills, a good mechanical aptitude, customer relations skills, honesty, conflict resolution skills, leadership skills, and a drive to see myself successful. I have a strong desire to continue to learn as much as I can and would benefit from a good mentor-apprentice dynamic.

Personal skills I believe to be a work in progress would be my own confidence and organizational skills, a dislike of heights above 25 ft. I also find myself to be somewhat of a quiet person when I'm around people I'm unfamiliar with.

As for work/life balance, I am happy to work during all weekdays and occasional weekend shifts up to 60-70 hours a week at the upper end. I have a preference against night shifts, but can do them on occasion.

I have a clean driving record and a clean background with no criminal history.
