Dear Hiring Committee,

I am writing to apply for an apprenticeship opportunity with the Millwright local 1916. I am very interested in starting a career as an industrial mechanic and becoming a skilled tradesperson within your organization.

I am currently graduating high school this year, where I have developed a strong work ethic, responsibility, and the ability to learn quickly. I enjoy hands-on work, using tools, and solving mechanical problems. I am especially interested in a career that involves building, maintaining, and repairing machinery, and I am eager to gain real-world experience in the trade.

I also hold a G2 driver's license, which allows me to travel reliably to job sites and training locations. I understand the importance of being punctual, dependable, and ready to work.

I am motivated to begin a career in the skilled trades and am committed to learning from experienced journeypersons while contributing to a safe and productive work environment. I take pride in working hard, following instructions carefully, and being a positive member of a team.

Thank you for considering my application. I would appreciate the opportunity to begin my career with the Millwright Union and develop my skills through your apprenticeship program.

Sincerely,
Logan Gauthier
