Millwright candidate

519-732-7562

Professional Summary

Experienced industrial maintenance professional with strong hands-on experience supporting mechanical repairs, preventative maintenance, equipment installation, and troubleshooting of production machinery in industrial environments. Skilled working with conveyors, motors, pumps, hydraulic and pneumatic systems, welding, and fabrication. Known for reliability, strong work ethic, and the ability to keep equipment operating safely and efficiently while minimizing downtime.

Core Skills

- Industrial equipment maintenance and repair
- Mechanical troubleshooting
- Hydraulic and pneumatic systems
- Preventative and predictive maintenance
- Conveyors, motors, pumps and rotating equipment
- Welding, fitting and fabrication
- Blueprint and diagram interpretation
- Rigging and equipment installation
- Plant shutdown support and mechanical overhauls
- Lock-out / tag-out safety procedures

Professional Experience

- Donkers Millwrighting Ltd. – St. George, ON April 2018- Present

Industrial Maintenance / Millwrighting Support

- Assisted with installation, repair, and maintenance of industrial mechanical equipment.
- Worked on pumps, motors, conveyors, and production machinery in manufacturing plants.
- Supported welding, fabrication, and mechanical fitting for repairs and installations.
- Performed preventative maintenance inspections to keep equipment operating efficiently.
- Read work orders, diagrams, and blueprints to complete maintenance tasks.

- Assisted during plant shutdowns, mechanical overhauls, and equipment installations.
- Followed strict workplace safety procedures including lock-out/tag-out.

Additional Industrial Experience

Hands-on mechanical experience supporting maintenance teams in industrial environments. Skilled using hand and power tools, diagnosing mechanical issues, and assisting with repairs and installation of production machinery and plant equipment.

Key Strengths

- Strong mechanical aptitude
- Reliable and hardworking
- Ability to work independently or as part of a maintenance team
- Experience working in fast-paced industrial environments
- Flexible to work overtime or weekend shifts when required
