EDUCATION

Honours Bachelor of Commerce with Internship, Level 5

September 2020 – June 2025

DeGroote School of Business, McMaster University, Hamilton, ON

- Area of Focus: Business Data Analytics
- Entrance Scholarship, 2020
- Dean's List, 2020-2022

WORK EXPERIENCE

Finance Coordinator

August 2023 – September 2024

Royal Botanical Gardens, Burlington, Ontario

- Demonstrated a good understanding of accounting concepts when using Momentus and Excel to ensure correct account balances and reported the information to over twenty departments monthly.
- Exercised initiative and innovation by automating the collection and generation of revenue reports that were created manually prior, by using Excel functions, turning a multi-hour process into ten-minute process.
- Displayed strong time management skills during the month-end, quarterly, and year-end periods by delivering confidential department reports to management before deadlines.

Spray Technician & Bookkeeper

May 2021 – August 2023

Line-X, Hamilton, Ontario

- Effectively demonstrated attention to detail and superior technique when using a plural component paint sprayer to provide a protective coating to truck beds, creating both a textured and durable surface.
- Carried out quality control measures by inspecting that each coating was done without overspray or damage to customer property, ensuring that the service met both the company and customers standards.
- Performed office duties such as producing invoices and warranties, cheque transactions, file organization, customer appointment scheduling, and finished product delivery to build efficient business operations.

Intern IT Specialist

June 2018 – August 2018

City of Burlington, Burlington, Ontario

- Implemented the setup of both Windows and Apple devices for multiple departments city wide, allowing for faster communication and efficiency for each department.
- Demonstrated computer literacy and communication skills by directing remote aid to other city employees having difficulty using their devices, minimizing employee time away from work.
- Exercised proper confidentiality when assigning the ownership of devices and the scrubbing of data from storage before destruction to ensure that the privacy of the organization was kept safe.

SKILLS AND QUALIFICATIONS

- Microsoft Office Excel: VLOOKUP, HLOOKUP, SUMIF, pivot tables, data visualization, imports.
- Python: NumPy, Pandas, Matplotlib, Sklearn, recursion, classes.
- R Programming: Linear regression, classification algorithms, data visualization, data cleansing.
- SQL: Fundamental queries and commands, applications within MS Access.
- Swift: iOS application development in Xcode.
