- Added IT Support training (LinkedIn Learning) to broaden technical toolkit

PROFESSIONAL EXPERIENCE

MILLWRIGHT APPRENTICE

365 Industrial Solutions — Brantford, ON • Nov 2025 – Present

- Support fabrication and assembly work in the metal shop, primarily focused on bridge components and structural steel projects
- Fit steel, following shop drawings and supervisor direction
- Assist senior millwrights with layout, measurement, cutting, and preparation of materials for fabrication
- Operate basic shop equipment (grinders, drills, saws) to prep and finish components
- Participate in equipment installation, alignment, and general mechanical tasks as assigned
- Maintain a clean and safe work environment, following all shop safety procedures and PPE requirements
- Contribute to efficient workflow by organizing materials, staging components, and supporting team tasks as needed

FOREMAN / PLANT OPERATOR

Green Infrastructure Partners — Brantford, ON • Feb 2022 – Oct 2025

- Led daily plant operations focused on reliability, safety, and efficiency
- Coordinated preventive maintenance schedules and oversaw emergency repairs
- Performed welding (SMAW) and fabrication on heavy equipment and plant infrastructure
- Operated Front End Loaders to load bins at the asphalt plant, push piles, and load trucks
- Operated Skid Steers for loading/unloading materials, site cleanup, and landscaping around the plant
- Implemented safety audits reducing incidents by 20%
- Optimized machine downtime tracking to improve efficiency

LABORER & JOINT H&S REPRESENTATIVE

Advanced Forming / Reimar Construction — Toronto, ON • Oct 2020 – Feb 2022

- Worked at heights on high-rise projects; ensured fall protection compliance
- Assembled and dismantled formwork systems; conducted hazard assessments
- Led daily toolbox talks promoting safety awareness on site
- Collaborated with engineers on reinforcement layouts

SUPERVISOR / FORKLIFT OPERATOR / LUMBER GRADER

Goodfellow Lumber — Milton, ON • Feb 2011 – Oct 2020

- Supervised warehouse operations for 12 staff ensuring workflow efficiency
 - Graded lumber and inspected defects; ensured orders met customer quality standards
 - Managed inventory and coordinated logistics with external partners
 - Held monthly safety meetings and trained new hires on equipment use
-
