Re: Seeking full time employment as a recent graduate of the Welding Techniques program

To whom it may concern,

Please accept this letter and attached resume in application for full time employment. I am a graduate of the Welding Techniques program through Fanshawe College. I am seeking to obtain full time employment to assist with furthering my skills and knowledge.

I have 6+ months of practical experience as a welder/fitter at Bouling Metals. I also completed a 120-hour co-op placement at Swent Fabrication And Machine LTD as part of the requirements of the Welding Techniques program. Throughout the program I gained proficiency in GTAW, GMAW and SMAW techniques. I have also gained the ability to complete grinding, fitting, cutting and oxy acetylene torch cutting. I also have knowledge of blueprint reading and sketching gained through course work. I have studied health and safety practices as well as applied math. Workplace professionalism is of importance to me and I have exercised within my 6+ months at Bouling Metals..

Thank you for your time and consideration to review my application. I look forward to hearing from you and gaining further experience while working for your business.

Sincerely,

*Xavier Wagenblast*
